Working with Block Volumes/getting block volume details.txt

```
Getting a Block Volume's Details
View a block volume's details.

Console
CLI
API
Open the navigation menu and click Storage. Under Block Storage, click Block Volumes.
Under List Scope, in the Compartment list, click the name of the compartment where the block volume was created.
In the Block Volumes list, click the name of the volume.
The Details page for the block volume appears. The Details page contains information about the volume, both general information and links
```
